It's pretty cheaply constructed cardboardBy User 123It's pretty cheaply constructed cardboard, and the coins are larger than the holes and are difficult to put in.0 of 0 people found the following review helpful. Full cost hidden by posting low purchase price and much higher shipping price.By goarmyThe price for the item was great, until they added in the shipping fee. It came out being almost the same price, if I would have just bought it locally. No bulk order discount, no prime availability, no choice on shipping speed. Knowing what the actual cost difference now, between this seller, and paying another 50 cents to buy it locally; I would just buy it locally for the up front costs, the time and convenience.
