Dan Shideler : 2008 Official Gun Digest Book of Guns Prices before purchasing it in order to gage whether or not it would be worth my time, and all praised 2008 Official Gun Digest Book of Guns Prices:

0 of 0 people found the following review helpful. Five Stars By Tim Bell Learned a lot from this guide 0 of 0 people found the following review helpful. The last PRE-HYSTERIA accurate price guide. By Patrick McDonald This was the last volume published before "The Do-Nothing Messiah" took office. Therefore, it is the last accurate guide of gun prices. I highly reccomend thuis book for use at gun shows, pawn shops, and anywhere else the possibility of buying a

used gun (or new) may arise. The chicken little, sky is falling sect want you to believe 700 bucks for a used GLOCK 21 is warranted because "They gonna take away our guns! They gonna tax ammo so it's 10 dollars a bullet!" Use this book, and refuse to give in to the hysteria. 0 of 0 people found the following review helpful.
