From Brand: Krause Publications : 2009 Collector Car Price Guide before purchasing it in order to gauge whether or not it would be worth my time, and all praised 2009 Collector Car Price Guide:

0 of 0 people found the following review helpful. This is the source of collector car pricing By Michael A. Duvernois There's a lot that can be criticized in this massive tome, but it is the pricing standard for collector automobiles. This is what people refer to for pricing guidance and what you'll have to deal with you disagree on pricing. Setting aside the weirdly inflated world of collector car prices, this book has several hundred thousand listings of cars starting in 1901. It's a treasure trove of information on classic cars. 0 of 0 people found the following review

helpful. A Reference Book By Tim Thimios Well, the book itself is a price list of cars, trucks, etc. which is based on a point system. That's all well and good, but if you're only interested in a particular car it's a one-line reference book. For more intense pricing on a particular car there are better books to choose. However, a lot of work has been put into this price guide (which is revised yearly) and for that it rates a good buy. 0 of 0 people found the following review helpful. correct pricing By Carolyn Morrison We got the book to get an idea of what our old car was worth. It helped us get the highest price. We would have asked for less.

The 2009 edition of Collector Car Price Guide provides you with essential information on finding, fixing, financing and having fun with collector cars, just as previous editions have done for more than 20 years. This book, in its easy-to-carry format contains more than 250,000 "ballpark" values determined from auction data, collector input and market research to help you accurately rate the condition of a car and identify the difference between classic, antique, special interest, collector and milestone models. Lists all the models made by 109 carmakers and 37 truck makers between 1899 and 2001 Preferred reference of various professionals including automobile dealers, bankers, appraisers, insurers, adjusters and restorers Features the 1-6 Condition Scale, the standard of the collector car industry
