François Robinard, Philippe Trombetta, J. Clementine : 50 Aérodroemes pour une Victoire: Juin-Septembre 1944 (French Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised 50 Aérodroemes pour une Victoire: Juin-Septembre 1944 (French Edition):

0 of 0 people found the following review helpful. great bookBy TrombettaThis is a great book about the airfiel that Aviation engineer create during wworld war 2 in normandy. 50 maps , profils and a lot of pictures. If you have any interest in aviation you must have it.

French TextBeginning on June 6, the Allies were able to establish their first airfields in Normandy. Here we will discover the fifty airfields that played an essential role in the Allied victory in Normandy. The authors offer detailed descriptions, maps, and archival photos for each of the airfields. In addition to the technical plans for the runways, the squadrons assigned to the airfields along with more than one hundred color profiles of the aircraft are included.
