I also collect and deal in mid-century kitchenware and I pretty much buy every book on the subject that is available. To find absolutely no text in this book was beyond belief. All you get are some very pretty photographs and prices. They even misspelled one of the major enamel bowl makers (it's Cathrineholm, the name of a place in Norway, not Cathrine Holm!) which tells me they did NO research whatsoever. As far as pricing, they fail to give a bowl size which is a huge indicator of value. You could honestly get the same or more information by paying a visit to a large auction website for free. Relive an era when the kitchen was kitsch -- melamine bowls were pink and purple, cocktail shakers and party glasses sported fun themes, iced tea was served in sweaty spun aluminum of futuristic metallic shades, and wall clocks kept time in bright plastic frames shaped to evoke the jet age. This wonderful collector's guide helps to date and value items manufactured for the kitchen in the mid-20th century. items range from ever popular cocktail accessories to serving ware, pitchers and glassware, canisters, spice racks, trivets, ashtrays, rotary wall phones, chalkware ornaments, and salt and pepper shakers. Here is a nostalgic trip back in time, to mom's eat-in kitchen where family and neighbors gathered for cards, gossip, and good eats.
