R. S. Yeoman : A Guide Book of United States Coins 2008 before purchasing it in order to gage whether or not it would be worth my time, and all praised A Guide Book of United States Coins 2008:

0 of 0 people found the following review helpful. Beyond question the absolute best guide to pricing and grading for serious coin collectors. Highly Recommended.By Michael R.This is the 3rd edition of this greatly expanded version of the long-time favorite of coin collectors by Yeoman. It has very good illustrations and even more supporting content than the past two editions, if that's possible. If you are a serious collector, this is the reference book you need as your

guide to pricing for retail sales. The companion "Blue Book" guide is also the #1 guide for dealer prices. Highly Recommended! 46 of 46 people found the following review helpful. STARTERS GET THIS By SolarRaistlinZ This is what you want in a collector's guide. It's got the years and types and prices for each coin going back to the early 1700s. The spiral binding is especially useful for table top use when looking through a pile of coins. Color pics and the description and detail is amazing. It even gives a description for the grade of individual coin styles!!!! what should a BU Washington quarter look like vs a Morgan dollar - it's all here. If you are starting out, you'll want this one first. Blue is for pros and those who are getting more into the investment side. The red book gives just enough info to get you started and excited and feel a heck of a lot more knowledgeable with background and history, reference and premium statistics. 0 of 0 people found the following review helpful. A Guide Book of United States Coins 2015, The Official Spiral Red Book By TELL IT LIKE IT IS ! This is one of the more accurate coin collection books of retail prices for all U.S. coins. It covers every U.S. coinage ever made including Gold coins, Commemorative's, Tokens, Bullion coins, Proof and Mint Set's. This is one of the better books you'll need to put a retail value to your collection. I have collected these books for years they seem to get better every year.

THE OFFICIAL RED BOOK® A Guide Book of United States Coins enters its 62nd year with no sign of slowing down! Americans nationwide look to this one-volume library to tell them how rare their coins are and how much they're worth. Collectors rely on it for its full-color photographs and detailed technical data. The Red Book covers the history and values of colonial and early American coins, half cents through silver dollars and gold, commemoratives, Proof and Mint sets, errors, Civil War tokens, territorial gold, state quarters, Presidential dollars, and other U.S. coins, with practical essays on grading, investing, auctions, and more. Pricing for more than 6,000 individual coins More than 700 full color photographs Updated values, mintage's, and auction records Expanded coverage of commemoratives, sets, and other coins New state quarters and Presidential dollars
