Richard C. Albert, Carrie E. Albert : Along the Delaware River (NJ) (Postcard History Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Along the Delaware River (NJ) (Postcard History Series):

The Delaware River has been home to steamboats and canoes, swimmers and fishermen, and shipyards and factories for generations. Recreation and industry have long coexisted along its changing banks. Along the Delaware River presents the Delaware River corridor-from Hancock, New York, in the Catskill Mountains, to the mouth of the

Delaware Bay-at the beginning of the twentieth century. Postcards, many nearly a hundred years old, are used to show a river system that both resembles and differs greatly from the one we know today.

About the AuthorRichard C. Albert has studied the Delaware River for more than twenty-five years and is currently the Delaware Riverkeeper Network scientist. He has written extensively on the Delaware River and river management. Carrie E. Albert holds a master's degree in history with certification in museum studies from the University of Delaware. She has interned at the Historical Society of Delaware and Frank Lloyd Wright's Fallingwater.
