Carolyn L. White : American Artifacts of Personal Adornment, 1680-1820: A Guide to Identification and Interpretation (American Association for State and Local History) before purchasing it in order to gage whether or not it would be worth my time, and all praised American Artifacts of Personal Adornment, 1680-1820: A Guide to Identification and Interpretation (American Association for State and Local History):

Bracelets, buckles, buttons, and beads. Clasps, combs, and chains. Items of personal adornment fill museum

collections and are regularly uncovered in historical period archaeological excavations. But until the publication of this comprehensive volume, there has been no basic guide to help curators, registrars, historians, archaeologists, or collectors identify this class of objects from colonial and early republican America. Carolyn L. White helps the reader understand and interpret these artifacts, discussing their source, manufacture, materials, function, and value in early American life. She uses them as a window on personal identity, showing how gender, age, ethnicity, and class were often displayed through the objects worn. White draws not only on the items themselves, but uses their portrayal in art, contemporary writings, advertisements, and business records to assess their meaning to their owners. A reference volume for the shelf of anyone interested in early American material culture. Over 100 illustrations and tables.
