Russell Lewis : American Farm Collectibles: Identification and Price Guide before purchasing it in order to gauge whether or not it would be worth my time, and all praised American Farm Collectibles: Identification and Price Guide:

4 of 6 people found the following review helpful. A superb resource for the dedicated enthusiast By Midwest Book Review American Farm Collectibles: Identification And Price Guide is a catalog of classic mementos of the bygone era of American farm life, including tools, antique tractors, toys and sleds, kitchen utensils, gardening items, turn-of-the-century ads, and much more. Black-and-white photographs fill almost every page other than the 32 pages of color photos, and the text offers straightforward item descriptions, current prices, and advice for finding collectibles and antiques. A superb resource for the dedicated enthusiast, and fun just to page through for the memories and nostalgia.

Most Americans live in cities or suburbs, but interest in rural life continues to grow. Collectors yearn for mementos of

the simpler life, from toy tractors to butter churns to horse harnesses.
