Manion's International Auction, Ron Manion : American Military Collectibles Price Guide before purchasing it in order to gauge whether or not it would be worth my time, and all praised American Military Collectibles Price Guide:

0 of 0 people found the following review helpful. Five Stars By David Buckelew great ref work
1 of 1 people found the following review helpful. Useful Reference By William Young Although the prices are somewhat out of date this book is still a very useful reference for the collector of American military collectibles. It is not a reference for the collector of Nazi militaria as the other two reviewers seem to suggest.

From the Civil War to the Gulf War, this first-of-its-kind price guide to American Military collectibles covers it all. Over 5,800 items from insignia and uniforms to edged weapons and medals are described in detail and accurately priced.
