Filippo Bonanni : Antique Musical Instruments and Their Players (Dover Pictorial Archives) before purchasing it in order to gage whether or not it would be worth my time, and all praised Antique Musical Instruments and Their Players (Dover Pictorial Archives):

The 1723 *Il Gabinetto Armonica*, famous collection of copperplates by van Westerhout, shows every important instrument of the day in exceptional detail — organs, harpsichords, violins, horns, drums, etc. — plus folk instruments of Europe and the Orient. Features 152 full-page, beautiful copperplates.
