**Jordan Biggio : Antique Rifles: Adult Coloring Book** before purchasing it in order to gage whether or not it would be worth my time, and all praised Antique Rifles: Adult Coloring Book:

Antique rifles are nothing like the modern weapons of today. These vintage weapons were crafted by hand with the utmost care. Many were hand made from hard woods and meticulously stained to help accent the the natural artistic grain of the wood. Gun enthusiasts see these vintage firearms as works of art and go to great lengths to protect and display them proudly for all to see. Jordan Biggio's latest adult coloring book: Antique Rifles, gives you the opportunity to color 20 antique rifles and proudly display your finished pieces. Not only is each rifle printed twice per page, but they are each labeled with their proper names as well. All you need to do is add a little bit of color and each antique rifle will be ready for display. Gun enthusiasts will love each hand drawn recreation. Each vintage rifle is

printed on one side of 60 lb pure white paper to minimize scoring and bleed-through. As an added bonus, the front and back covers are printed with a matte finish giving you the opportunity to color them as well. We suggest high quality colored pencils for the best results. Markers and gel pens work as well, but we suggest placing a piece of scratch paper between the pages to prevent the excessive bleed-through these coloring mediums are known for. Please note the pages in this adult coloring book are not perforated. "I have vintage firearms. The attention to detail is not something found in modern weapons of today. I really enjoyed recreating each one of these classic rifles with pen and ink and I know you will enjoy coloring them." What are you waiting for? Get a copy today and start coloring in these awesome antique rifles today.
