Michael Polak : Antique Trader Bottles Identification Price Guide (Antique Trader Bottles Identification and Price Guide) before purchasing it in order to gage whether or not it would be worth my time, and all praised Antique Trader Bottles Identification Price Guide (Antique Trader Bottles Identification and Price Guide):

1 of 1 people found the following review helpful. Good for Beginners By Sylver Wolfson This gives me the basic

bottles prices on old and new bottles and other items. It doesn't list the Coca-Cola bottles though. I was hoping it did. Hopefully when I start finding bottles some of them will be listed in this book. The book itself arrived on time and in good shape. 0 of 0 people found the following review helpful. Bottles-half full or half empty By Donnie Gentry Not at all what I expected. This book is not written for the weekend collector. This book is meant for someone whose income is wrapped up in buying and selling bottles. This tome does not cover the bottles that came from your great-grandmother or that neat bottle you found in the backyard when you were planting a tree. Do not waste your money if that is what you are looking for. If you want a clinical book to be able to classify bottles by the way their necks are shaped or the amount of bubbles in the glass this book will fit your needs well. 0 of 0 people found the following review helpful. Great history on bottle making and development. By Zach Attack Great history on bottle making and development. The price guide is directed towards common rare bottles, if that makes sense. There are plenty of other bottles that did not make their list. Most bottles in this book seem to be from the east coast. I wish there were more Rocky mountain region bottles.

Simply the Best! Known in the field as "The Bottle Bible," "Antique Trader Bottles Identification Price Guide" has been for nearly 20 years the definitive bottle-collecting guide. As the only full-color bottle book on the market, the guide is loaded with more than 5,000 listings and 700 photographs covering more than 50 bottle categories from the 19th and 20th centuries. Inside you'll find such bottle categories as: Avon, Barber, Beer, Bitters, Flasks, Jim Beam, Medicine, Perfume, Soda and many, many more. And with key identifying characteristics, detailed descriptions and current real-world values, you have in hand a trusted and reliable resource. New in the 7th Edition!
