Charles John Ffoulkes : Armour weapons, before purchasing it in order to gage whether or not it would be worth my time, and all praised Armour weapons,:

0 of 2 people found the following review helpful. Do Not Buy!By Ian LantzyThis book apparently is corrupted in some way. I have downloaded it to my kindle and to my netbook using the kindle app, and all it displays are pictures of what appear to be some sort of error message indicating that absolutely nothing in the book can be read in any way. I have effectively wasted \$3.49 of my mother's hard earned money on a book that apparently is completely useless and shouldn't be for sale if it doesn't even work correctly. I'd advise anyone who doesn't regularly light cigars with hundred dollar bills to NOT buy this book you'd just be wasting your money and and space on your kindle/pc/phone/etc.5 of 5 people found the following review helpful. a classic compact bookBy David M. CvetThis classic compact book, originally published in 1909 by Oxford was written by Charles Ffoulkes (1868-1947) who was the Royal Armouries first full-time curator. He writes an informative book on the evolution of personal military defense for individuals and horses, from a highly functional, simplistic mail-based harness to plate harness to the highly decorative, and in some cases, grotesque harnesses illustrating the prostitution of a craft degraded to satisfying the personal fashion whims of people who possessed more power and wealth than a sense of true combat.For any student of the art, or for those who practice the ancient armoured combative arts requiring one to wear a harness of the period and wields period replica swords, will fully appreciate what makes this book invaluable, is the fact that Charles highlights the numerous subtleties of armour construction and design elements which for most of us are unattainable, and who also highlights artifacts which no longer exist today having been lost during the world wars. It is clear that he

had written this book after years of developing hands-on expertise of this art through his work at the Royal Armouries. If there would be a good reason to include this book in your bibliography, the latter makes this book an invaluable addition. David M. Cvet Academy of European Medieval Martial Arts

This is a reproduction of a book published before 1923. This book may have occasional imperfections such as missing or blurred pages, poor pictures, errant marks, etc. that were either part of the original artifact, or were introduced by the scanning process. We believe this work is culturally important, and despite the imperfections, have elected to bring it back into print as part of our continuing commitment to the preservation of printed works worldwide. We appreciate your understanding of the imperfections in the preservation process, and hope you enjoy this valuable book.

"A handy book giving really correct information." -- Harold Arthur, Viscount Dillon About the Author Charles Ffoulkes (1868 1947), was the first full-time curator of the Royal Armouries, Tower of London. He is author of many articles and books on the history of medieval arms and armour.
