Stephen N. Fliegel : Arms Armor before purchasing it in order to gage whether or not it would be worth my time, and all praised Arms Armor:

1 of 1 people found the following review helpful. Only for the novice. By Rickey Askew If you like this subject, book is ok, but you learn nothing new. 4 of 4 people found the following review helpful. Good book. By K. Bujnovál I bought this book for my husband, who's armormaker, and he found it usefull as image resource. We've got lots of books about arms and armor, and lots of photos and pictures in those books are repeating. However in this book are some photos of armor we never seen before. It's great addition to our collection of books about history. 1 of 1 people found the following review helpful. Wonderful. By jdm This is a very nice work on European arms and armor, with good picture and descriptions. it is a very nice addition to any enthusiast's library

Associated with strength, bravery, and loyalty, arms and armor have long been decorated with great skill and care, thereby becoming artistic creations in their own right. Beautifully photographed, the Cleveland Museum of Art's

superb collection of arms and armor appears here along with works of art from each period that illustrate their use. Chapters include discussions of chivalry and the tournament, manufacture and decoration, and weapons as technology and art.
