JacobsonA really well presented book, great cars, great photos, the layout is excellent, and just enough info to make it good for research and interest beyond the beautiful photographs of excellent cars. One of the best "Coffee Table Books" ever !0 of 0 people found the following review helpful. Excellent book and fantastic artwork.By Neil W. HarmanA nice homage to the hot rod, but you have got to love Fords, as it is over 90% Ford based.However, I'm not sure how much opening and closing the book will take before the binding gets weak, It is a heavy book and it was very stiff on the first opening, but got soft very quickly. So I only give it 4 stars.Also the back cover was nicked in the upper corner, not enough to want to return for replacement, and clearly not damaged in shipping, so I'm surprised no one noticed it in packaging, or maybe they did and ignore it!.0 of 0 people found the following review helpful.
