**John Montague : Basic Perspective Drawing: A Visual Guide** before purchasing it in order to gage whether or not it would be worth my time, and all praised Basic Perspective Drawing: A Visual Guide:

Moving logically from simple concepts to specific tools and methods, this book shows how to construct perspective views one step at a time, with illustrated examples that cover every key part of the process. \* Step-by-step instructions make the learning process simpler \* Includes a new chapter on aerial perspective and an updated chapter with examples digital perspective drawings \* It is visually oriented with the author's graphic explanations making the drawing process easy to understand \* The author has also created spare and linear illustrations so the reader can shade sections, highlight lines or use coloured pencils to reinforce concepts and processes
