1 of 1 people found the following review helpful. Another terrific batik book By danny boy After I bought the Rudolf Smend's book "Batik from the Courts of Java and Sumatra", I just had to have more examples from his excellent collection. Collectively his books and Elliot's book "Batik Fabled Cloth of Java" represent for me a thorough discourse on the subject, textually and visually.

Batik: 75 Selected Masterpieces contains never before published pictures illustrating the exquisite cross-section of the batik production in Java. Featuring textiles from the personal collection of gallery owner Rudolf G. Smend, historic

photographs from the Hans van der Kamp Collection, and fascinating text from academic Isa Fleischmann-Heck, *Batik: 75 Selected Masterpieces* is a rich resource for collectors and lovers of the "golden period" of Java.
