Elizabeth Morrison : Beasts Factual and Fantastic (The Medieval Imagination) before purchasing it in order to gage whether or not it would be worth my time, and all praised Beasts Factual and Fantastic (The Medieval Imagination):

12 of 12 people found the following review helpful. A Beautiful BookBy Alison ColeFor anyone into Medieval illuminations, this book offers page after page of delicious reproductions from Medieval illuminated manuscripts and books. The text and reproductions detail animals - both mythical, fantastical and real in a most enjoyable book. I look forward to purchasing others in the series.24 of 24 people found the following review helpful. Delightful PicturesBy MelindaThe cover features one of my favorite Getty manuscripts. Inside are photos of beasts from a variety of Getty mss, not just bestiaries. This is another way of getting familiar with their collection. The captions are good, but the photos of the ms. pages are the strength of this book.0 of 0 people found the following review helpful. good intro bookBy evenNicely laid out, with a lot more pictures than text. I honestly haven't read much of the writing, though it seems well-written; mostly wanted the book for the pictures and was happy with what I got.

east's Factual and Fantastic features vivid and charming details from the wealth of manuscripts in the collections of the J. Paul Getty Museum and the British Library, along with a lively text; together both word and image provide an accessible and delightful introduction to the imagination of the medieval world.

About the Author Elizabeth Morrison is Associate Curator of Manuscripts at the J. Paul Getty Museum.
