From Beckett Pubns : Beckett Almanac of Baseball Cards Collectibles 2014 (Beckett Almanac of Baseball Cards and Collectibles) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Beckett Almanac of Baseball Cards Collectibles 2014 (Beckett Almanac of Baseball Cards and Collectibles):

0 of 0 people found the following review helpful. Needs bigger print By Michael Patrick Boyd Beckett Almanac of Baseball Cards Collectible 19th Edition is 1,344 pages and was released in 2014. The Almanac is broken down into three sections. The bulk of it is dedicated to Major League baseball cards and section two is reserved for Minors/Draft Picks and the final and shortest section is reserved for Vintage Minor League. Gone is the major index section and is

replaced with a semi watered down version. Also the decent size print is reduced to small print. I don't know how they could have done it but it should have been sold as a two catalog set with bigger printing. Included this year are prices for baseball college cards. Beckett Almanac of Baseball Cards Collectible 19th Edition gets a B-.0 of 0 people found the following review helpful. Disappointed I spent this kind of money for a book ...By BvicThis book does not even include certain years for company cards such as Topps 1952 and 1953, Donruss 1981, etc. It was advertised as a comprehensive book of Baseball Collectibles, and I do not feel it meets its own defined criteria. It is not a fault of , but Beckett who published the book. It also has Jays Publishing info for Yankees I believe, but what about the Phillies, Dodgers, White Sox, etc. Nothing in book about Drakes cards and/or panels, etc. Disappointed I spent this kind of money for a book that I thought would be of help and comprehensive.1 of 1 people found the following review helpful. Highly recommended for the serious collector!By Brian CunninghamOne of the best resources of vintage and modern cards. The only downside is the print size and pricing near the binding is sometimes hard to see. Otherwise, one of the most complete and accurate guides available.
