**From Brand: Beckett Publications : Beckett's Unofficial Guide to Pokemon** before purchasing it in order to gage whether or not it would be worth my time, and all praised Beckett's Unofficial Guide to Pokemon:

1 of 1 people found the following review helpful. just what he wantedBy K. BlaineMy nephew requested this for Christmas and was very pleased with it.3 of 3 people found the following review helpful. Not really as complete as it would have you thinkBy Wayne P. MiddletonI bought this book when it was first released a few months ago thinking it would be similar to the original Beckett Pokemon TCG guide (which you can still buy on ). The original contained nice pictures of all of the cards, grouped into sets, in order. They even went so far as to include and translate all of the

current Japanese cards (which were quite a lot at the time) in the same manner as the USA cards. Also were included pictures and lists of all the current Promo cards (US and Japan) and even Japanese oddities like the Japanese only Vending set. That brings me to the new "updated" 2007 edition of the guide. The bulk of this book is nothing more than a list of every pokemon from Red/Blue, Silver/Gold, and Ruby/Sapphire with a random image of a card featuring them. The rest is the standard text only list price guides / check lists in the back. But even these are incomplete. Many sets don't include any cards other than the Rares, making the book useless for any kind of record keeping. In short I was disappointed with the book as it serves no real practical purpose. No sets with card images, no complete check lists, nothing I couldn't have found for free either from Nintendo's Pokemon TCG website or elsewhere on the internet. If you want a "Pokedex" type book I suggest the Prima guide that includes actual game information for every pokemon from every game. As for this book, it's a complete waste of money. Pokemon 10th Anniversary Pokedex (Prima Official Game Guide) 1 of 1 people found the following review helpful. Kids were happy to get it! By Doreen J. Crespo Kids seem to think it was worth it. Came with a price guide. Cheaper than buying it the store.

The publishers of the No. 1 Pokémon magazine, Beckett Unofficial Pokémon Collector, are proud to present a price guide featuring every Pokémon ever made, including the newest Pokémon from Diamond and Pearl. This book is packed with colorful pictures, descriptions and card prices for the newest Pokémon. Inside you'll get: Pictures, cards and coverage of all 107 of the newest monsters. Important Pokémon information such as type, evolution and description for each monster. The most comprehensive Pokémon card price guide and checklist. Find out what your collection is worth. This book is a MUST-HAVE for any Pokémon fan or collector.
