Mark Knowler : Brooke Bond: The Classic Tea Card Collections before purchasing it in order to gauge whether or not it would be worth my time, and all praised Brooke Bond: The Classic Tea Card Collections:

Every child who grew up in the Fifties and Sixties remembers the Brooke Bond collecting cards that came with every packet of tea. Some were lucky enough to have the specially-produced albums in which to collect the cards that had either come with the latest packet of tea or been traded in the school playground. This beautifully printed, nostalgic book presents the best 12 original albums, reproduced slightly larger than they were forty years ago to bring out the best in the wonderfully detailed illustrations. Collecting original Brooke Bond tea cards is a hobby that has a huge following, with serious collectors never daring actually to glue the cards into the albums as was originally intended - that would mean losing the information on the back and devaluing the card. In this book, however, you can see how each album was intended to look, with every card printed in its correct position, making every page an enormously colourful feast for the eyes. The albums that have been included are: "Out Into Space", "British Wild Life", "Wild Flowers series 2", "Freshwater Fish", "African Wild Life", "Asian Wild Life", "British Butterflies", "Wild Birds In Britain", "Transport Through The Ages", "Trees in Britain", "Flags and Emblems of the World", and "History of the Motor Car".

About the Author Mark Knowler is a recognised expert on tea cards and other trading cards and runs the teacard.com website.
