The authors have gathered the rare, the unusual, and the expensive glass so very desirable to collectors and so very attractive to newcomers. For the first time, readers may view items that only rarely come out of private collections and almost never go on public auction. Collectors will marvel at the more than 450 full-color pieces, whether they are scarce due to availability, shape, or color. Organized alphabetically by pattern, the book features items in standard shapes as well as whimsy pieces. Edwards's Carwile's latest book truly does feature the 'best of the best' in the carnival collecting world, and readers will enjoy perusing this coffee table book.
